## HAIRWEAR

hairtalk hairwear® offers a healthy, semi-permanent hair enhancement solution for clients experiencing more severe forms of hair loss. This unique system combines our easy to apply tape-in hair extension method with traditional hairpieces and does not require shaving. Best of all, the pieces are completely customizable with tape-in extensions for added length and fullness.

hairtalk hairwear allows your client's natural hair to grow while wearing the piece. Wash it, swim in it, workout and live in it. Each application lasts 3 to 6 weeks and allows for re-applications lasting up to 12 months of total wear.
